

## TWO REPORTS MADE ON SCHOOL PLAN

### SPRING BROOK'S NEEDS YET IN DISPUTE.

Majority and Minority Recommendations Were Presented Last Night and Both Were Tabled By the Commissioners—Manual Training Proposition—Cannot Collect Interest.

At the meeting held last night, the board of education: Heard an adverse, and a minority report, on the question of school accommodations for Spring Brook, and tabled both. Heard the report of the finance committee, to the effect that the city could not collect interest on the school funds.

Heard a proposition from several business men to give \$500, if the city would give a like sum to equip the manual training department, and accepted it.

Paid bills aggregating \$598.24. A full board was present, and on report of Commissioner Clemons, bills amounting to \$598.24 were ordered paid.

Commissioner Hayner, from a special committee, made the following report: Janesville, Wis., Oct. 2, 1896.—To the Board of Education: Your committee appointed at the last regular meeting to consider the advisability of opening a school in rented rooms in Spring Brook addition, or in lieu of said school to furnish conveyance for carrying scholars to and from the different schools which they are now attending, would respectfully report the number of scholars now in attendance from Spring Brook, Armour street and Blind Institute way:

DOUGLASS SCHOOL.  
First grade, ten; second grade, ten; third grade, seven; fourth grade, ten.

LINCOLN SCHOOL.  
Fourth grade, one; sixth grade, four; seventh grade, five; eighth grade, two.

WEBSTER SCHOOL.  
First grade, six; second grade, one; fifth grade, nine.

JEFFERSON SCHOOL.  
First grade, three; second grade, three; third grade, three; fourth grade, one; fifth grade, one; sixth grade, one; seventh grade, two; eighth grade, one.

Not finding any suitable room for such school, your committee, after carefully considering the matter, deem it inadvisable to either establish a school at Spring Brook or furnish conveyance to carry children to and from school at the present time.

SILAS HAYNER,  
FRED L. CLEMONS,  
Commissioners Burpee Dissents.

Commissioner Burpee, from the same committee, made the following minority report:

To the Board of Education of the City of Janesville:—The undersigned, member of the special committee, appointed to investigate the advisability of establishing a school at Spring Brook, dissents from the report of the majority of said committee, and would respectfully report as follows:

That there are now seventy-eight pupils from Spring Brook and the southern side of the river attending the Webster, Douglass, Jefferson and Lincoln schools, thirty three of whom are attending the first and second grades, and that the ages of these latter are from five to seven years.

That the principal demand for a school in Spring Brook is on account of the distance being too far for children of that age to travel in attending school, and that there is considerable hardship and danger in compelling children of that age to cross the bridges at Monterey and Jackson street.

In addition to the thirty-three pupils now attending school there probably are many more that would attend if a school were established.

That a suitable room such as would accommodate all the smaller pupils who cannot very well cross the bridge can be procured and fitted up at a moderate expense. Such a room would accommodate all the smaller pupils for the present and is all that could be arranged for at this time of the year.

In view of these facts I would recommend that the present needs be met by fitting up a good, large room for the smaller pupils and the employment of one teacher for the winter.

F. C. BURPEE.  
The report was received and filed. Manual Training Department.

Commissioner Shearer then said that several gentlemen had agreed to contribute \$500, provided the city would furnish a like sum to equip the building as originally planned for the manual training department. As the city receives \$250 per year from the state for this work it would require only the appropriation of \$250 to take advantage of the generous offer. Discussion followed and Commissioner Clemons' motion that \$250 be appropriated as provision that the \$500 be donated, was adopted.

Commissioner Burpee moved that a special committee on manual training be appointed and the president appointed Commissioners Burpee, Shearer and Clemons.

After making arrangements for repairs at Webster and Douglass school buildings the board adjourned.

ENDEAVORERS MEET AT A FEAST

Banquet Was Served at the Congregational Church Last Evening.

The Young Peoples' Society of Christian Endeavor of the Congregational church gave a banquet at the church parlors last evening. W. S. Jeffris opened the exercises with prayer and the feast followed. Misses Edith Echlin, Jessie Spoon, Ada Crosssett, Genevieve Wilson, Beatie Gorham and Virginia Hayner were the waitresses, and they performed their task in a graceful manner. Robert A. Knoff was the toast master, and the following toasts were responded to:

"How We Happened to Get the C. E. Convention for 1897."—Miss Nettie Herrington  
"The Madison Convention."—F. A. Spoon  
"The Christian Endeavorer As a Citizen."—Prof. H. L. Brown  
"The Juniors."—Miss Harriet Owen  
"Fellowship With Our Brethren."—J. T. Fitchett

Remarks were also made by J. T. Wright, Prof. Buell and H. J. Cunningham, and a letter from Rev. S. P. Wilder, the former pastor, was read.

Bicycle Craze Cuts Into the Receipts of Dressmakers.

One of Janesville's most prominent dressmakers says that her business has fallen off this summer just one-half, and all on account of the bicycle craze. Many Janesville young ladies, she says, have spent a goodly portion of the summer in their bicycle suits, and even at the numerous up-river and country parties, they have made the trips on their wheels.

until needed for the purpose for which the money was borrowed.

Bids Were Received.

The report stated further that the finance committees of the council recommended that the city treasurer deposit the unused school fund in the First National bank of Janesville, such deposit to remain there subject to check of city treasurer for building purposes as needed and that A. P. Lovejoy be requested to pay into the city treasury interest upon the amount so deposited from month to month in accordance with his proposition of this date; that the interest so accrued go into the school fund.

The report referred to a communication from the city treasurer regarding the matter of loaning school funds, and stating that if the council thought that he had the legal right to loan the funds that it should be let to the highest bidder; also that he had some doubt as to whether the charter would admit of such an action. The finance committee recommended that the treasurer, after consultation with the city attorney, deposit the money in the bank that would pay the greatest interest. Bids were received from the First National bank and the Merchants' and Mechanics' bank. Another communication from the treasurer accompanied the bids in which the treasurer stated that if the council deemed it advisable and proper to loan the money to the deposit of school funds in a certain place he desired and expected to be relieved of all responsibility by the council.

Verbal Agreement Made.

In conclusion the report said: The communication and bids were referred to the committee on finance, and it does not appear that the committee have ever reported on the matter, or that the city has ever had any arrangements with the Merchants' and Mechanics' Savings Bank regarding the payment of interest on school funds, so far as the records show. Your committee ascertained from Mayor Balmert, who was chairman of the finance committee, that after the above communication was received from the city treasurer, the finance committee endeavored to devise some way of realizing interest on school funds, but found considerable difficulty, as section 11 of chapter 3 of the city charter, made it an embezzlement for the city treasurer to loan with or without interest any portion of the city or ward funds, and also every officer or agent of the city, and all persons advising or participating in such act, or being a party thereto.

But that the finance committee made a verbal agreement with the Merchants' and Mechanics' Savings Bank to pay interest on the school funds deposited therein at the rate of two per cent per annum, the interest to be paid into the city treasury as soon as the city adopted certain portions of the uniform charter, which would permit the city, by resolution, to designate the bank where city money shall be deposited.

It appears from the books of the city treasurer, that in pursuance of the above agreement, that on the 10th day of October, 1894, there was deposited in the Merchants' and Mechanics' bank the sum of \$40,000, and that said money remained on deposit in said bank until drawn out on orders of the school board as the work on said high school progressed.

The records of the common council proceedings show that the portion of the uniform charter above referred to was adopted September 9, 1895. It appearing from the facts that at the time the agreement was made with the Merchants' and Mechanics' Savings bank that the city treasurer had no legal right to loan the funds with or without interest, and that the agreement was made for the express purpose of doing something which the charter said could not be done, and was therefore illegal, the payment of interest on the school funds must be optional, and in the opinion of the committee no action can be maintained against the Merchants' and Mechanics' Savings bank under the agreement above mentioned.

F. C. BURPEE,  
JOHN CUNNINGHAM,  
JOHN WEISSEND.

The report was received and filed.

Meteor Weighing 327 Pounds Presented To Beloit College—A. E. Matheson Speaks At Fort Atkinson—Rally at Edgerton—Football Team Formed—Beloit's First Woman Senior.

Beloit, Wis., Oct. 2.—A meteorite weighing 327 pounds was dressed in a planer at the Beloit Iron works yesterday. It was found in Canyon Diablo, Arizona, and was secured for Beloit college by Prof. E. G. Smith, over a year ago. The mass is a ragged nugget of very hard metal, which workmen say cuts like soft steel. One side is to be dressed smooth that it may be engraved, and the cuttings will be analyzed. A number of meteorites have been found in the locality where this fell.

JOHN M. WHITEHEAD FOR SENATOR

Milton Telephone Makes Kindly Mention of the Republican Candidate.

The Milton Telephone says: "John M. Whitehead for senator from this district will give general satisfaction. He is a man of ability, conservative in his views, and will make an efficient legislator. Mr. Jeffris, in his remarks at the convention, voiced the sentiments of his supporters, we think, when he pledged his efforts to secure the election of the nominee. With a United States senator to be elected at the coming session of the legislature, it is all important that a good working republican be secured, and all good republicans should lay aside any personal feeling they may have and work and vote for the candidates of their party."

Edgerton Reporter: "John M. Whitehead, of Janesville, who was nominated for the senate by the republicans in the district composed of Rock county and a portion of Jefferson county, is president of the state organization of the Y. M. C. A., an able lawyer, fine public speaker, and a graduate of Yale college."

The Fond du Lac Commonwealth says the nomination of Mr. Whitehead can be said to be somewhat of a new movement in our state politics. "His distinguished ability and high character," says the Commonwealth, "will make for him a conspicuous place in the state senate."

## TIRED SALESWOMEN.

EMPLOYERS SHOULD BE MORE CONSIDERATE.

Interesting Statement by a Young Lady in Brooklyn.

In the vast retail establishments of large cities, many women are employed as saleswomen.

Men formerly held the positions that

women now hold, and while

women's organization is less strong than men's

they are expected to do the same work. Their duties

compel them to be on their feet from morning to night, and many of them, in a short time, contract these distressing complaints called "female diseases."

Then occur irregularities, suppressed or painful menstruation, weakness, indigestion, leucorrhoea, general debility and nervous prostration.

They are beset with such symptoms as dizziness, faintness, lassitude, excitability, irritability, nervousness, sleeplessness, melancholy, "all-gone" and "want-to-be-left-alone" feelings, blues and hopelessness.

In such cases there is one tried and true remedy. Lydia E. Pinkham's Vegetable Compound at once removes such troubles. The following is a sample:

"My dear Mrs. Pinkham:—After writing you, and before your answer came, I was too miserable to go to the store, and so lost my position. That was five weeks ago. I am now back again in my old place, and never felt so well in all my life. The bearing-down pains and whites have left me, and I am not a bit nervous or blue. Life looks brighter to me. I don't get tired, my temper is real sweet, and I could scream right out sometimes for joy. Your Vegetable Compound is my standby. You don't know how thankful I am to you for saving me from suffering. Every woman in my position should know of your wonderful remedy. I never saw you, but I love you for being so good to me."

ONE advantage the Cole's air tight heater has over other stoves, any woman can handle it, in the spring or fall the stove must necessarily be moved somewhat, anybody can easily lift this stove. It has no doors to jar open and is therefore safe from sparks of fire. The "Cole" stove is the cheapest and most economical stove made, and at the same time the best heater. Lowell Hardware Co.

Argument For Serious Thoughts.

If you are a person with business experience, either man or woman, you will realize that the step we have taken in adopting this strictly cash system of doing business is one that certainly will help the purchaser as well as ourselves. You know that the charging of goods becomes a matter of habit with many people, and that the best of us are irritated and even surprised at the amount on the presentation of a bill for dry goods whenever it may be. You know that for many reasons we can afford to sell dry goods at a smaller margin when we are dead certain of receiving the cash for them when they are purchased. There are a great many people today who never buy a thing without paying cash for everything, and those people we will save money for; and we think with the saving of money for these people, other buyers will be just as anxious to come with their cash and procure more for it than the credit way of doing business can possibly offer. # Autumn Millinery....

Just a foretaste—but there are dozens of trimmed Hats and Bonnets ready to be looked at—ready to be worn. You may enjoy a glimpse of them today—you may own any of them before any one else gets a chance. Our Millinery is chic, up to date and elegant. The best trade in town patronize this department, and Miss O'Neil has three trimmers who have each spent two weeks in the pattern rooms and they are correctly posted in what are the right ideas; and the hat need not cost much to be stylish and becoming, for we take a pride in producing the very nobbiest headwear at the popular prices for which Archie Reid's is famed. We show all the latest in Walking Hats of felt, camel's hair, corduroys, &c, also a large line of the very desirable Tam O'Shanter Caps for Misses.

A glance at the center window will give you some idea of what makes this department the millinery headquarters of Janesville. The nobby dressers have their orders executed here. Are you one of them? If not, why not?

## WORKINGMEN ARE FREE

Every workingman who wants to

get his wages in 53-cent dollars in-

stead of 100-cent dollars will have a

chance to gratifying his astonishing

desire by voting for Bryan on the 3d

of November next. Every working-

man knows that, and everybody else

knows it.

Every citizen can vote as he pleases,

and it is not possible for any man,

any corporation, or any collection of

goldbugs, whatever to prevent his

going in for 53-cent dollars if he pre-

fers them.

Why any workingman should want

to be paid in clipped dollars is hard to

say but it need not be considered in

this connection. There may be

people who honestly believe they

would be richer if they were paid in

dollars that bought nine pounds of

gratulated sugar instead of eighteen

and bought two pounds of coffee in-

stead of four. It is enough to say

that people need have no fear that

they will be kept from recording their

belief at the polls.

If any man wants to be paid in a

53 cent dollar instead of a 100 cent

dollar he need not fear. No power on

earth can prevent him from voting for

it. That is his privilege as a citizen.

He can strike for lower wages, or he

can vote for lower wages if he is so in-

clined. This is a free country.

Wheat has gone up 12½ cents since

September 8 and silver has gone

down a quarter of a cent. The de-

pendence of wheat upon silver thus is

proven beyond a peradventure.

Lumbermen have tired of democ-

racy and low wages and the northern

part of the state promises a majority

for McKinley that will surprise folk.

The populists seem to think that a

man may be a lawyer and be honest,

but they want him to stop being a

lawyer just as soon as possible.

Since Bryan began to talk about

"me and Abraham Lincoln," his man-

agers have conceded two more states

to McKinley.

Tom Watson talks to Chairman

Jones as if he hadn't the slightest ob-

jection to jumping on a man when

he's down.

Bryan had his hair cut the other

day, but, if one may judge from his

language, his wisdom teeth are still

uncut.

If advance rumblings count for any-

thing the Watson bolt may be ex-

pected short.

## Cloaks at 25c.

Sale Begins Oct. 6, Tuesday, Lasts 5 Days.

Many women who have children to dress, may be puzzled to know how they are going to get new Cloaks for them this winter. There's Mary, her last winter's Cloak has air holes at the elbows and looks very shabby. And Lizzie's Cloak is much too small for her now. Mother sighs, and thinks about all the things required to take the family through the long winter, thinks about the small allowance they have to live on, and thinks and thinks.

## The Scene Brightens...

We are going to have a sale of chesnut Cloaks. We do not hold these garments up as being the latest styles; we do claim, but you'll discover it quick enough, that they are warm, heavy Cloaks, and will put prices so low that it will pay to buy them to make over. They won't all be made over. Many women will be glad to get them to wear just as they are. We will arrange them on our second floor and have them all marked in plain figures. Some of them were bought in 1893, some in 1894, and many of the best of them in 1895, only last winter.

## SOME BUYING DONE BY THE LEAF MEN

GROWERS SEEM TO BE WILLING TO SELL.

How Long the Rush About Edgerton Will Continue Cannot Be Told, But Things Are Lively Just Now—Janesville Market Quiet—Other Leaf Notes.

The buying of the '06 crop which started in a small way last week in Vernon county, has since spread into almost every growing section of the state, and the present week has witnessed some as lively scrambling as has been seen in our state since the season of '84, when buyers chased one another about the country, paying the highest prices ever known for Wisconsin leaf, says the Edgerton Reporter. It has been the easiest kind of buying, too, the dealers have experienced in many years. The growers generally have been very willing to contract at the prices offered which has greatly facilitated the rapidity the movement of the crop has been carried on. When half a dozen men in the field can secure contracts for 5,000 cases in less than a week's riding, there is some pretty lively hustling being done. What simplifies matters is the fact that a great many of the crops has been carefully watched by local representatives during the growing and coming season so that with memorandums at hand it was easy enough to know when and where to look for customers. Whether the buying will continue until the desirable portions of the crop are gathered up cannot yet be foretold. At any event the pace is set and it is a pretty rapid one and the race is on.

Janesville Market Is Quiet  
Local tobacco market conditions drag along in a dull and unsatisfactory manner, says The Leaf. To be sure a small amount of business is done each week, but it is small and no mistake. A few buyers are riding in an easy, don't-care-much sort of a way, and an occasional lot is picked up. Among those riding are G. M. Rumrill, L. B. Carle, Soverhill & Porter and Joseph Grundy. No sales of importance have reached us this week. The majority of packers are disposed to lay on their oars until after the election. Nearly every one of the leaf men are sound money men and contemplate the possibility of free silver with no small amount of anxiety. It is fortunate that we have but a few more weeks of uncertainty. The new crop is curing down splendidly and a few have taken down a portion of their crop. We understand that a few crops of '06 have been bought in this and Vernon counties at from 5 to 8 cents per pound.

Minor Leaf Notes.  
Merritt Haviland is traveling in Northern Illinois this week.  
F. S. Baines spent the first of the week examining Stoughton samples, and receiving a quantity of old goods.  
James B. Mole, the inventor of the best tobacco transplant ever made, has received two patents on harness buckles.  
F. C. Greene of Reading, Pa., connected with the leaf firm of J. L. & M. F. Greene, is in this city and inspecting the new crop.  
A. S. Flagg, of Edgerton, attended the republican rally in this city Saturday evening and listened to the eloquent ex-Senator, John C. Spooner.  
Ex-Mayor Thoroughgood has returned from a business trip from Pittsburg and reports business on the mind in the Smoky City and the republican sentiment strong.  
S. B. Heddles returned from Chicago Wednesday evening, where he had spent several days among the tobacco men at the World's Fair city. Business is very quiet in that city.

GRIFFIN IS FOR HONEST MONEY  
"Darb" Wants No Cheap Money, But Favors the Best Dollar.

Another democrat has broken away from the party with which he has always cast his ballot in the person of John Griffin, familiarly known among his intimate "friends," as "Darb." Mr. Griffin announced to an acquaintance yesterday that he did not favor the popocratic idea of repudiation and cheap money, but was in favor of preserving the existing gold standard. Hence, he said, he will vote against Bryan. Mr. Griffin has always been a potent force in Fifth ward politics, and his repudiation to the popocratic platform is significant.  
"I have two shillings in my pocket," he said in conversation with an acquaintance yesterday, "and I will not vote to reduce that coin to one shilling. I want the best money that we can get, and therefore endorse the gold standard."

### WHEN

[From the St. Louis Star.]  
When two added to two makes five,  
When an elephant can live in a bee hive,  
When rivers and brooks flow uphill,  
When they make brick-chests in a brick kiln,  
When a man chokes a cud like a cow,  
When tramps all follow the plow,  
When the sun rises at midnight,  
When darkness is brighter than daylight,  
When the hens begin to lay bricks,  
When we call calling Irishmen Micks,  
When everybody is working for fun,  
When seventy-five pounds make a ton,  
When on the Fourth we quit using fireworks,  
When England quits backing the Turks,  
When Bryan puts a stopper on his turk,  
When you want to go north you walk south,  
When a day is five hours long,  
When "Comrades" is the new popular song,  
When a democrat passes a saloon,  
When we get to the north pole in a balloon,  
And shake hands with the man in the moon,  
Then free silver will be good for the poor.

## LAWYERS ASK TIME TO MAKE SPEECHES

WANT THE OPENING OF THE COURT CONTINUED.

Just At Present Most of Them Have Many Political Engagements and Cannot Get Their Cases Ready For Trial Until After The Ballots Are Counted.

Janesville lawyers do not want to file affidavits or strike jurors these days, so they have put up their legal clubs, and locked the files in their desk drawers.

They have other fish to fry just now—the dissemination of political brain food.

Hence, they cannot be expected to work on their cases now, and they ask Judge Bennett to adjourn the opening of court in order that they may continue their labors as "pail binders" and vote changers. They ask that the opening of court being postponed until three weeks after the election, so that they can get "ready for trial" after the country is saved. There is little doubt but what the request will be granted. The document presented to the court was as follows:

Janesville, Wis., Sept. 28, 1906. To the Hon. John R. Bennett, Judge of the Judicial Court—We, the undersigned practicing attorneys-at-law of the city of Janesville, Rock county, Wis., respectfully request that the term of the circuit court, which, by law, commences on the fourth day of November, 1906, may be by you continued until Monday, November 23, 1906. ## WHY BRYAN SHIRKS THE TARIFF THEM

CONDITIONS UNDER M'KINLEY  
AND WILSON LAWS.

**A Convincing Contrast—Loss of Wages  
\$1,457,488 a Month in 550 Establishments  
Since the Change Was Made—  
Time to Call a Halt.**

Boy Bryan insists that it is not necessary to discuss the tariff question in this campaign.

No more potent argument showing why Bryan and his Popocratic friends seek to eliminate the tariff from the campaign could be presented than a thorough comparison between the condition of labor and employment in 1892 and in 1896, these dates being respectively two years after the enactment of the McKinley and the Gorman-Wilson tariffs.

The American Protective Tariff League has compared such a comparison after a complete investigation. It is based on the number of employees engaged in various lines of trade and industry, and the amount paid in wages four years ago and at the present time.

### Damaging Contrast.

The difference shown is stupendous, and there are those who believe that it has to do with the widespread desire for tariff literature, even in these rapid silver days, and the determination of employers and employees alike in many states to keep the tariff prominent as an issue.

Michael H. De Young of California, for instance, said yesterday that California favored both protection and free silver, but that as between the two issues the tariff would predominate and carry the state for McKinley.

The reasons why may be shown below.

Replies from 550 employers in 36 states show that in July, 1892, they gave employment to 114,231 persons, while in July of this year the number of employees had become reduced to 78,700. The amount of wages paid, in July, 1892, to the 114,231 hands aggregated \$3,927,900. But the pay rolls for last July, after two years of the Democratic free trade tariff, aggregated only \$2,469,712.

The monthly average rate of wages has declined from \$34.50 to 31 among those who are at work. The number of idle hands, in about 550 establishments, was 35,531. The monthly loss of earnings to the wage earners was \$1,457,488. The decrease in employment has exceeded 30 per cent. The decrease in wages earned has been 40 per cent.

### Immense Loss Shown.

That is to say, in only 550 establishments, representing various trades and industries, there has been a reduction of nearly \$1,500,000 a month in wages paid to employees.

Of all the industries represented, only two show an increase in employment, and in wages—the manufacturers of bicycles and bicycle supplies and the manufacture of certain patent novelties, both of which are governed by an abnormal rather than a normal demand.

On the other hand, the two industries which show the greatest falling off, both in the employment of American labor and the individual wages paid, are the wool producing and woolen trade and the handling and manufacture of timber and lumber.

Wool and woollens, timber and lumber were placed on the free list by the Gorman-Wilson tariff.

### Shut-Downs Frequent.

Many furniture manufacturers, iron and steel men, woolen mill owners and others report a complete shut-down of their establishments, while many others show a wholesale reduction in the number of hands employed, with still further reductions in the number of hours of employment and in the scale of wages.

One of the most interesting comparisons is provided by the Baxter stove manufacturing concern in Major McKinley's own state. In 1892 that firm employed 129 hands; this year 101; but their monthly pay roll shows a decrease of \$2,754.85 in loss of wages to their employees. No reduction has been made in the rate of wages in this instance, the loss being due to fewer hours of work a day and less days of employment.

But Boy Bryan declares that the tariff is not a live issue!

In this connection it is well to know that nearly 5,000,000 tariff documents already have been sent out in this campaign from this city alone in response to demands for them.—New York Press.

### To Workingmen.

Are you old enough to remember the promises of 1892 in the name of tariff reform?

Have you prospered since?  
Have you had steady work and good wages?

Do you think the dollar you earn too good?

Do you think it buys too much?

Would you be better off, do you think, earning \$1.50 of the purchasing power of 80 cents than earning \$1.25 of the purchasing power of \$1.25?

Do you quite understand how a 50 per cent lessening of the value of your earnings, and an increase of prices of all things you have to buy, would be to your benefit?

Do you know of any good reason why you should add to the hardships of wage earners in order that silver mine owners may gain millions?

Are you anxious to be fooled in 1896 by free coinage as you were in 1892 by free trade?—Utica Herald.

# EVERY DAY HINTS!

For Every Day People.

You may have delayed the purchase of the much needed stove, but surely if you are going to get one this year you want one right away. Let us suggest to you

A Garland,  
A Peninsular, or  
A Radiant Home.

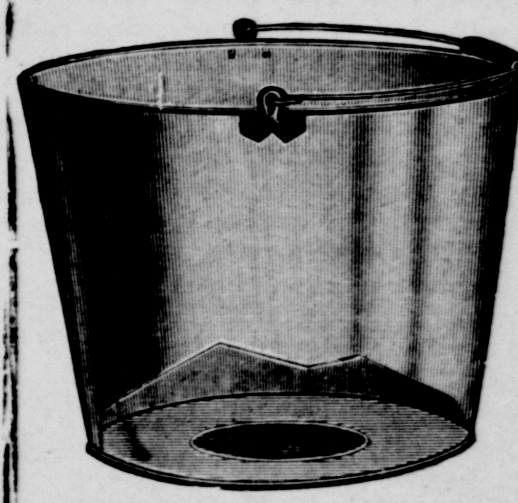

All of them are the best made. More Garlands in use in the city than any other make; they do the work in the cold weather and have points no other stove contains. A business man here in town bought a large size Radiant Home of us the other day and said he wouldn't use any other make when he could buy the Radiant Home---it heated better and burned less fuel than other stoves. 'Tis a fact that all three stoves handled by us are best and most economical.

Trade is becoming more and more active every day in our

Shoe  
Depart-  
ment.

It's a favorite buying place for ladies and men because they get the best of shoes cheaper of us than at other stores. We shoe everybody at a saving of from \$1 to \$2 a pair. New fall goods are here and coming almost every day.

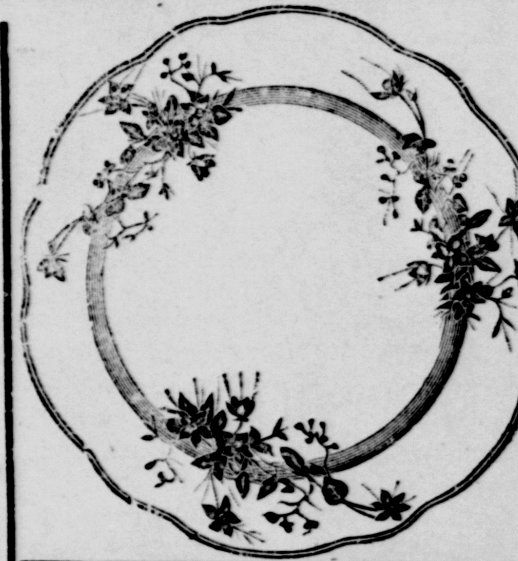

Crockery  
and  
Glassware

Prices have received a great bump at our hands. We are selling an enormous quantity and are enlarging our already magnificent stock continually. Hardly a week goes by that we do not fit out a young married couple with housekeeping utensils.

Sets of dishes, pretty single pieces and elegant imported ware we sell much of A new importation of china and

glassware direct from Germany, France and Austria just received. Small prices for them.

It's remarkable the amount of working men's Shoes, Jackets, Pants, Shirts, Hose, Overalls and Underwear we sell, all because the qualities are best and the prices lowest at the big cash store.

**The Cruelty of Warfare.**  
 "I hate to do such a thing," said the editress of a campaign newspaper in a woman's suffrage community. "But politics is politics."  
 "What's the matter?" asked her husband, who was waiting to carry some copy into the composing room.  
 "I've written an article that will lose the rival candidates 2,000 votes, at the lowest calculation."  
 "Have you discovered something damaging in her record?"  
 "Yes, I can show beyond a doubt that she is wearing a last year's bonnet, and that her clothes don't fit her, because she makes them herself."—Washington Star.

**Unjust Suspicions.**  
 Mrs. Shril—Two or three times family matters referred to on postal cards which I received have become public property, and I'd just like to know how it happened.  
 Postal Clerk—I guess you must have left the cards laying around the house.  
 "Oh! Think I did, did you? Are you sure those cards were not read by somebody here?"  
 "Very sure, ma'am; there isn't a woman in this office."—N. Y. Weekly.

**Susannah.**  
 I dreamt a dream the other night, When everything was still; I thought I saw Susannah, dear, A-scorching down the hill. An awful glare was in her eye, Her gum was in her mouth; Says I: "Susannah, don't you cry, I'm leaving for the south. Oh, Susannah! Don't you cry for me! But since I saw dem bloomers, Suse, I've got to quit ye. See?" —Indianapolis Journal.

**Dental Note.**  
 Old Mrs. Chaffie is in a toothless condition from age, she being upwards of seventy years old. As she does not believe in commercial teeth, her loss of teeth is very perceptible.  
 Even Johnny Chaffie, her grandson, has observed the condition of her gums, for he recently said:  
 "Grandma, ain't it most time for you to get a tooth like the baby?"—Texas Sifter.

**Usually the Reason.**  
 "They tell me the De Courcys have a skeleton in their closet."  
 "Yes."  
 "And they have been dropped by society."  
 "Yes."  
 "Because of the skeleton in the closet, I suppose?"  
 "Not at all. It was because they didn't keep it there."—Chicago Post.

**How He Excused Himself.**  
 May—What excuse did Tom make for jumping to one side when that giddy Van Nelderly creature tried to fall on his neck and pretend to faint away?  
 Frank—He remarked that all the world agreed it was too much to expect an old head on young shoulders.—Town Topics.

**No Place for Him.**  
 Patrick (just recovering from the effects of ether, in the hospital)—Oh, where am I? where am I?  
 Dr. Sawbones (with a wink)—In Heaven.  
 Patrick (looking around)—Then, I'd like to know phwat you're doing here! —Bay City Chat.

**'Tis True, and Pity 'Tis, 'Tis True.**  
 She—Why do they call these the melancholy days?  
 He—Because they are the days when just as you have finished paying up your debts for your summer vacation, you remember that you have got to begin saving up for the holidays.—N. Y. Truth.

**Turn About.**  
 Soon will the man who vends the coal Vow that revenge is nice; Since he the purse strings will control Of him who sold the ice. —Washington Star.

**MRS. HEN'S LITTLE JOKE.**

"Hello," said the rooster to the hen that he had found hiding in a secluded spot, "who are you laying for?"  
 "Well," said the hen, "until to-day I have been laying for that man over there with the ax, but he is laying for me now."—Up-to-Date.

**A Technical Error.**  
 "You are charged with being a pick-pocket," said the magistrate to the prisoner.  
 "Then I can prove I'm not guilty, your honor," replied the latter, "for the officer says he saw me snatch the purse out of the lady's hand!"—Town Topics.

**Easily Done.**  
 "Before I can surrender this wig," said the desk sergeant, "it will be necessary to prove ownership."  
 The applicant removed his hat.  
 "The wig is yours," said the sergeant promptly.—Chicago Post.

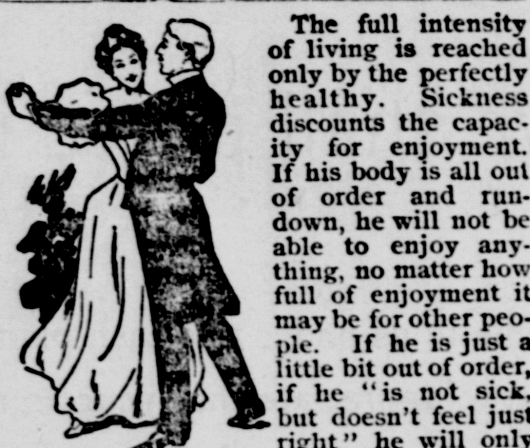

**No Assistance Needed.**  
 "Help! Help!" cried the man who was being robbed.  
 "Calm yourself," said the highwayman. "I don't need any assistance."—Tit-Bits.

**Saved the Expense.**  
 "Did you tip the stewards when you were coming back from Europe, Miserly?"  
 "No. The vessel did enough tipping for all of us."—Detroit Free Press.

**Seemed That Way.**  
 Mrs. Philanthro—Tell me, my poor man, is your blindness permanent?  
 Mendicant (despairingly)—It looks like it, lady. Times is that bad. I don't see no chance of retiring.—Tit-Bits.

**It Must Be True.**  
 "I've become interested in palmistry," remarked Dukane to Gaswell.  
 "Indeed!"  
 "Yes, and I have been struck with the palmists' assertions that women with a masterful disposition always have large thumbs."  
 "That strikes me as a reasonable provision of nature."  
 "How so?"  
 "A woman who keeps her husband under her thumb needs to have a large one."—Pittsburgh Chronicle-Telegraph.

**Had Two Rides.**  
 "Well what was the result of your first bicycle ride, Dubey?"  
 "A ride in the ambulance."—Detroit Free Press.

The full intensity of living is reached only by the perfectly healthy. Sickness discounts the capacity for enjoyment. If his body is all out of order and run down, he will not be able to enjoy anything, no matter how full of enjoyment it may be for other people. If he is just a little bit out of order, if he "is not sick, but doesn't feel just right," he will only be able to enjoy things in a half-hearted sort of way. The nearer he is to being perfectly well, the nearer will his capacity for enjoyment be perfect. If this condition doesn't exist, something ought to be done. That means nine cases in ten the use of Dr. Pierce's Golden Medical Discovery. It works directly on the digestive organs, and on the blood and through these on every tissue of the body. It makes the appetite good, digestion and nutrition perfect and supplies rich, red blood to all the tissues, building up solid, healthful flesh.
